

Changes, Innovations Greet Alumni

Micheels Reviews New Dimensions At IA Conference

It wasn't just the sheets of rain washing the color out of the October leaves that made the campus look different.

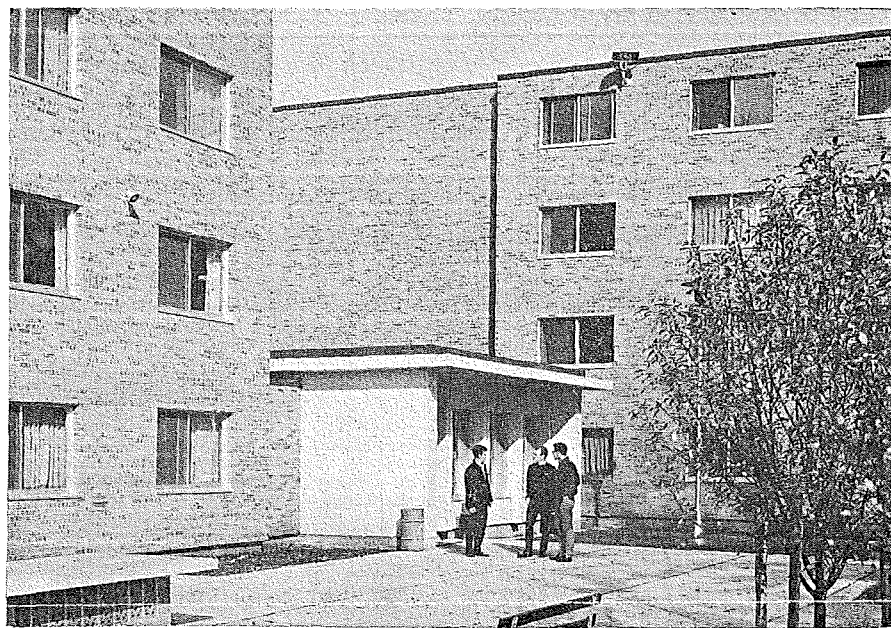

The campus is different — and to the more than 600 alumni who returned for Homecoming, 1967 the changes were perhaps more pronounced than ever before.

The campus has spilled over its long-held central boundaries down the Second St. hill into a solid valley of buildings. Lynwood Hall is gone; new faculty faces — 72 of a total 273 this fall — appear in unfamiliar office locations. At various stages of planning are a \$215,926 maintenance building to be located south of the Health and Physical Education center; a \$4 million science and technology building to be erected east of the central campus; an \$835,000 classroom and administration building and a \$1 million addition to the library.

IE Conference

Pres. W. J. Micheels used growth and innovation as the theme of his keynote address to the 14th annual industrial education conference Homecoming weekend in the Health and Physical Education center.

Referring to the field experience program, in which students receive part of their education off-campus in work related experience, Micheels said that because of the program's scope "during the past three years Stout's campus has grown in size over 150 million times (based on the surface area of the earth related to the surface area of Stout's Menomonie campus)."

Typical of the physical changes which are going hand-in-hand with Stout's expanding academic program, is this men's residence hall. Two newly-opened dormitories — each housing 356 — a \$2 million food service facility known as "The Commons" and two other residence halls are located on the university's south campus which now stretches from the main campus to the football field.

He cited the "exciting" growth of the university's television facilities from one student-operated camera three years ago to what he considers to be, upon completion this year, "one of the finest television facilities in the country devoted solely to closed circuit television instruction." Increased classroom and mobile use of CCTV was outlined.

Research under the experimental American Industry project, into psycho-vector analysis and various studies in the physical and biological sciences and nutrition are going on simultaneously at Stout, along with teaching innovations in most every department.

Assurance was given conference-goers by the president that these innovations are designed to enhance, not threaten, Stout's position as a unique institution.

Homecoming Highlights

Nostalgia reigned along with Queen Ellen Grenzow, of White-water, during Homecoming weekend as the "Highlights in Heritage" theme was carried out through the use of ice cream socials, vintage cars and a 21-float parade.

A cold rain dampened the hairdos but not the smiles of the queen, Football Princess Barbara Cummings, Merrill, and their court: Karen Gromoll, Eagle River; Christine Radiski, Milwaukee; Nancy Rauhut, Ladysmith; Susan Kay, River Falls, and Dolly Marino, Oak Creek. Float prizes were won by: Chi Lambda and Sigma Sigma Sigma, most beautiful, and Hansen-Keith-Milnes hall and Phi Omega Beta, most humorous. Phi Sigma Epsilon was presented the grand champion award.

(Continued on Page 2)

(Continued from Page 1)

At Nelson field, a loyal crowd of students and alumni sat out the steady rain to a spirit-dampening 14-35 finish with WSU - Platteville. At halftime, the Stout marching band provided entertainment and scholarships were awarded by the Stout State University Foundation, Inc. to Michael McLain, a senior from Menomonie, and Joanne Weiler, a Burlington junior.

Reunion Dinners

The Hotel Marion was the setting for the silver anniversary class of 1942, hosted by Robert Rudiger, Menomonie. Approximately 60 persons returned for the dinner.

Both the class of 57 and the class of 62 met in the student center. About 40 members of the 10-year class gathered in the President's room with James Daines, Menomonie, as dinner host. Don Schlei, Eau Claire, was host and Art Muller, Menomonie, co-host, for the more than 50 members of the five-year class in the International room.

Homecoming provided alumnae with the opportunity to meet Stout's new assistant dean of home economics, Mrs. Mary Wanda Vansickle, left, shown with Esther Lee Brown (33), supervisor of home economics with the Wisconsin Department of Public Instruction; Arlene "Jimmie" Hoeth Quilling (45) HEAA secretary-treasurer, and Ruth Bubeck Voll (36), re-elected president of the HEAA.

State Finals Of Wool Program Here Draw Large Crowds

Busloads of home economics teachers, FHA and 4-H groups, homemakers organizations and carloads of the interested general public converged on Menomonie Nov. 17-18 for the state finals of the Make It Yourself With Wool program held on the Stout campus.

This is the first time in the program's history that the state finals have been held outside of Madison and, according to program officials, Stout was a "logical choice" because of its excellence in the field of home economics.

Before the 2 p.m. program, visitors had the opportunity to tour the campus and home economics facilities. According to Gerald Donley, school relations coordinator, the event replaced the traditional Stout Days for the state's home economics teachers and their classes. Stout Days, discontinued because of the university's growth, will be replaced by events of interest to various specialized groups throughout the year, Donley said.

New Plans Widen Home Ec Horizons; Name Assistant Dean, 4 Men To Staff

Twenty-eight members of the HEAA attended its second annual meeting Oct. 6 during which Ruth Bubeck Voll (36), Shorewood, was re-elected president and Arlene "Jimmie" Hoeth Quilling (45) was named secretary-treasurer.

Because it is difficult for many teaching alumnae to get away on Friday, the group voted to hold the next home economics conference and HEAA meeting on a Saturday during the academic year.

Dean Ronaldson reported that Mrs. Nabilla Williams, first graduate of Stout's pre-school major, is now at the University of Ghana setting up a pre-school education program at the behest of her country. She is receiving monetary support from Stout faculty; home economics alumnae are invited to contribute to this fund.

Returning alumnae met Texas-born Mrs. Mary Wanda Vansickle, named this fall to the new position of assistant dean of home economics

and acting head of the department of child development and family life.

Mrs. Vansickle came from Texas Woman's university, Denton, where she received the bachelor of science degree in home economics education in 1962 and the master of science degree in home economics education with a family life emphasis in 1967. While at TWU, she taught home management, meal management and clothing construction. Presently working toward a doctorate in family life, she has also taught home economics on the junior and senior high level and has had experience in school lunch supervision and in business. She is the co-author of a clothing textbook to be published soon.

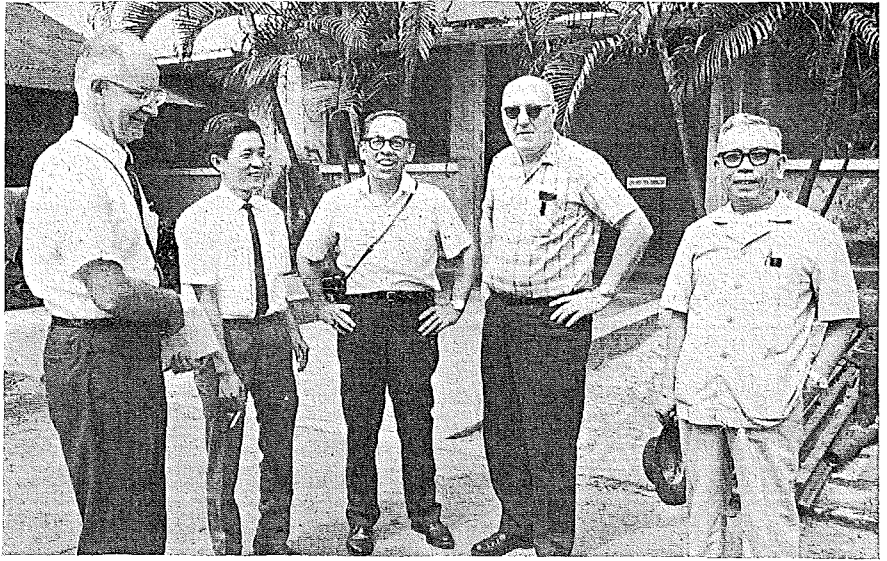

Exciting changes are underway in the department of child development and family life, according to Dean Ronaldson, who has announced the appointment of four men and two women there in addition to Mrs. Vansickle.

Rare Books Given By Oscar Brunkow

A gift of 23 architectural books, including four collector's items has been presented to the Stout State University Foundation, Inc. by Otto E. Brunkow (Dip 13), of Glen Ellyn, Ill., upon his retirement as a practicing architect.

He brought the books from his private library when he returned to the campus in October to attend his first homecoming in over half a century, and they have been placed in the graphic arts library.

A veteran of World War I, Brunkow taught at Stout four years and earned his B.S. degree in architecture from the University of Illinois.

Pausing on their tour of Vietnam's largest foundry industry are, from left, Dr. John Furlong, vice president for university relations and development; Do Thanh Long (BS 62, MS 64), director of the Phu Tho Polytechnic institute in Saigon; Richard McKinney (BS 49, MS 51), education advisor for USAID in Saigon, and Robert Douglass (BS 41, MS 49), assistant director of USAID's technical division. On the far right is Mr. Dho, president of the foundry.

Seek SSU Boosters To Welcome Frosh

A "big brother-big sister" program has been planned by Gerald Donley, coordinator of school relations and Lloyd Trent, director of development and alumni services, and all it needs to be a success is the help of loyal alumni who are willing to extend a welcoming hand.

Under the plan, as soon as a prospective freshman is accepted by Stout, an alumnus in that student's home city will be notified. The alumnus will then call on the prospective freshman with a welcome, an assurance that the student has made a wise choice of schools and will be ready to answer any questions about Stout the student may have. They are under no further obligation.

Willing alumni are asked to fill in the form below and return it as soon as possible.

I am willing to serve as a Big Brother/Sister for a prospective Stout freshmen.

Name _____

Address _____

Phone _____

Please mail this form to Lloyd W. Trent, director of development and alumni services, Stout State University, Menomonie, Wis. 54751.

Furlong Combines Study, Sociability In "Hometowns" Around The World

Following a summer spent in South Vietnam as one of a seven-member study team, Dr. John Furlong, vice president for university relations and development, met educators in several areas, visited countries from which Stout students come and became personally acquainted with the truth of the sign which hangs outside his office door: "The sun never sets on Stout alumni."

The Agency for International Development (AID)-sponsored team of which Furlong was a part was set up to assist South Vietnam's minister of education in preparing a plan for the reorganization of elementary, secondary, vocational, technical and adult education.

Upon completion of the formal portion of his mission, Furlong was joined by his wife for a tour which took them to Taiwan, Hong Kong, Bangkok, Calcutta, Nepal, New Delhi, Istanbul, Athens, Belgrade and Zagreb.

Dine With Alumni

Traditional Vietnamese delicacies were on the menu in Saigon at a dinner prepared and served by the home economics teachers of the Phu Tho Polytechnic institute, of which Do Thanh Long (BS 62, MS 64) is the director.

In Taipei, the Furlongs were feted by Stout alumni at a dinner in the Fou Hsing Yuan restaurant. Present were Ya Pai Lee (MS 67), Charles Hwa-lin Wang (MS 67) and former students Henry Mingtseng Wang, Jungtsung Wu, Wan-teh Chou and Homer Yu.

They were also guests at a reception given in their honor by Y. C. Lee, president of the Yuan Control in Taiwan, and Mrs. Lee. The Lees are the parents of Mrs. David Wei-Ping Liu, wife of an assistant professor of economics at Stout.

Stout's Heritage Highlights Shine During 33rd Annual Alumni Meeting

Search Begins For Oldest Living Grad

Tradition blended with innovation at the 33rd annual meeting of the Stout Alumni association Oct. 7 as liberal studies Dean Dwight Agnew and Pres. W. J. Micheels joined in a backward and forward look at the university.

In commemoration of Diamond Jubilee year and carrying out the theme "Heritage and Horizon," Agnew reviewed "Highlights in the History of Stout" followed by the president's comments on "Stout in the Future."

Rivalling physical expansion is the university's growth in the areas of research, new majors, teaching techniques, financial aids, computer center and organizational structure.

During the business meeting which followed, national president Joseph Koch (57) made the following committee appointments: Distinguished Alumni Award — Herbert Anderson (44), chairman; Philip Ruehl (BS 41, MS 48); Alyce Donovan Vanek (33), and Robert Rudiger (BS 48, MS 50). Diamond Jubilee Observance — Faculty Alumni Relations committee consisting of Lloyd Whydotski (41), chairman; George Soderberg (44); Mrs. Vanek; James Collier (MS 65); Rebecca Gralow (64); Arthur Muller (62); Edwin Siefert (36); Lloyd Trent; Betty Viens (MS 61), and John Zuerlein (BS 65, MS 66).

The following persons were re-elected to the advisory board of the Stout State University Foundation, Inc., for a three-year term: James D. Bailey (48), Howard M. Heigl (BS 53, MS 56); Patrick T. O'Connor (35); Mrs. Vanek, and Whydotski.

The executive committee was directed to investigate means by which the *Stoutonia* may continue to be sent to alumni now that the cost must be borne by the association.

Oldest Alum Sought

Tribute will be paid Stout's oldest living alumnus on Founder's Day, April 6, 1968, if such a person can be found, according to Lloyd Trent, director of development and alumni services. Alumni are urged to contact Trent if they think they are that person or know of someone who should be so honored.

In addition, alumni are urged to search through their scrapbooks and their memories for items and pictures to be used in a special Diamond Jubilee section of the winter *Alumnus*. All such reminiscences should be mailed to Lloyd Trent.

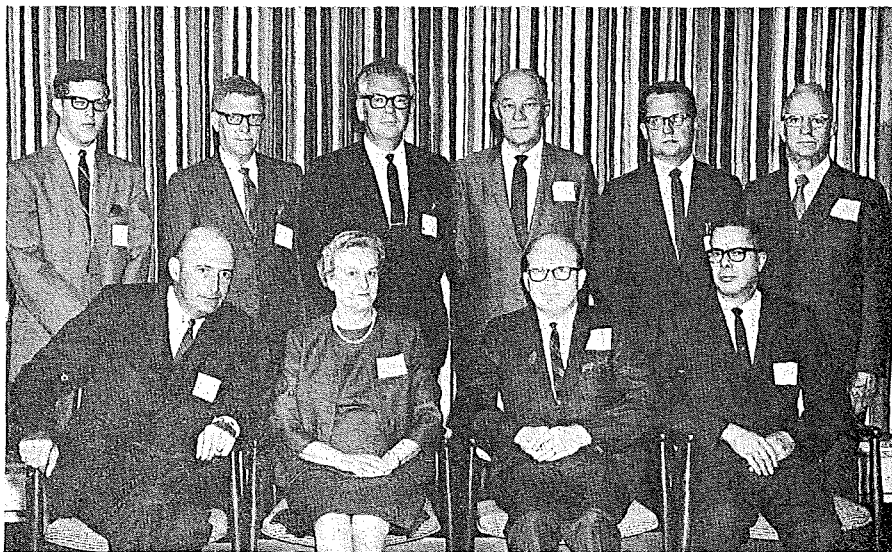

Progress is also in evidence in the Alumni office where records and mailing labels are being put on IBM cards. Since the price of progress is sometimes momentary confusion, alumni are requested to be patient during this transition period.

Committee Seeks Nominations For Annual Awards

Nominations are again in order for two alumni, a man and a woman, who will be honored with the Alumni association's Distinguished Service award during June commencement, 1968.

To be eligible for the award, candidates must have earned a diploma or degree from Stout and must be in attendance at the commencement exercises when the awards are to be made. A candidate may be nominated by an alumnus or a member of the faculty, active or emeritus. Awards are given annually "in recognition of distinguished service to his or her profession, community, state or nation in a manner to bring credit upon the person and the university."

Persons wishing to make nominations may do so on the blank provided on the back of this issue of the *Alumnus*. Nominations will be considered by an award committee who will announce winners in the spring.

At a recent meeting, the Board of Directors of the Stout State University Foundation, Inc. learned that the Diamond Jubilee fund campaign had reached \$114,000. Continued support is needed if the fund is to reach its goal of \$150,000 by the end of 1968. Board members are, seated from left: G. J. Dodd, Minnetonka, Minn.; Henriette Quilling (BS 31, MS 37), St. Paul; W. Warren Barberg (BS 51), Eau Claire; and Lloyd Trent, director of development and alumni services. Standing from left, Larry Haisting, student body president; K. L. Rue, assistant professor of physics; Dean Herbert Anderson (BS 44); G. S. Wall, graduate college professor; Dr. Robert Rudiger (BS 48, MS 50), chairman of industrial teacher education, and placement director Frank Belisle.

Alumni Notes . . .

1921 - 1939

A long and distinguished career of service to vocational-technical education in Minnesota and the nation came to an end this fall with the retirement of S. K. Wick (Dip 21, BS 31) as state director of vocational-technical education with the Minnesota state department of education. His home is at 1923 Fairmont Ave., St. Paul.

Vivian Florin Hazel (BS 33, MS 58), a United Church of Christ missionary teacher and social worker in Ghana, has returned to the U.S. where she will spend a year's furlough explaining missionary work to American congregations. She is secretary of the Volta Regional Committee on Christian Marriage and Family Life in Ho, Ghana. The widow of the Rev. W. J. Hazel, a Congregational Christian minister, she has two daughters: Vivian, a student at the University of Ghana, and Florine, at the Ghana International school, Accra.

After more than 22 years of service as director of the Rhinelander Vocational school, C. W. "Doc" Rowe (BS 35, MS 54) resigned in October to serve as supervisor of the trade and industrial program and to help develop programs for business and industry at the Kenosha Technical institute.

Word has been received of the death of Ansel Anderson (BS 35). He suffered a heart attack Sept. 29 in his home in Kimberly. Mr. Anderson, who was active in football and baseball while at Stout, had served for years as an industrial arts-vocational education supervisor in Kimberly. He is survived by his wife, Delores. All of his three children preceded him in death.

Lawrence E. Schaudé (BS 39) received the master of arts degree from Western Michigan university, Kalamazoo, during commencement exercises there Aug. 11.

1940 - 1958

Jane Chenoweth Rosenthal (BS 40, MS 61) was awarded the doctor of education degree by Colorado State college, Greeley, Aug. 17. Dr. Rosenthal, who joined the Stout faculty in 1962, is a member of the graduate college staff in home economics education.

Dominic J. Bordini (BS 41, MS 50), director of the Kaukauna Vocational, Technical and Adult school, was awarded the coveted bronze plaque of the Kaukauna high school alumni association in June for his dedication and his "guidance and encouragement to youth searching for a suitable vocation."

Philip Stoll (BS 42, MS 56) has been named director of the Fond du Lac Technical institute. He and his wife, Aleen, reside at 95 Third St., Fond du Lac, and have five children.

Lloyd Harmon (BS 43, MS 50) has been appointed assistant principal of the Marinette Senior high school as well as its athletic director. Harmon has been head of the Marinette industrial arts department since 1959.

Jean Anderson (BS 46, MS 48) has been promoted to associate professor of mechanical engineering at the Michigan Technological university, Houghton. He has been a member of the staff since 1955.

Helen Melville Roberts (BS 48, MS 65) is teaching ninth and tenth grade home economics in the Stanley school system following a summer spent touring Europe.

A master of arts degree was earned by Nils G. McDermot (BS 58) who received his diploma Aug. 17 from Colorado State college, Greeley.

1960 - 1967

Judith Steiner Bechard (BS 60) has been appointed to the dietetics department of Luther Hospital, Eau Claire.

Richard E. Anderson (BS 60, MS 62) received the doctor of education degree Aug. 17 during commencement exercises at Colorado State college, Greeley, and is now Stout's assistant registrar. He and his wife, Kathryn Wigdahl Anderson (BS 62) are at home in Menomonie.

The Ph.D. degree was awarded Donald L. Clark (BS 61) by the Ohio State university Sept. 1 during summer quarter commencement in Columbus, Ohio.

Frederic G. Krueger (BS 62) received the degree of master of science in guidance from Wisconsin State university-Oshkosh during summer commencement there Aug. 4.

Capt. Paul D. Hallingstad (MS 63) is a communications officer stationed at Ent AFB, Colo. He is assigned to a unit of the Air Defense Command which provides aerospace defense against hostile aircraft and missiles.

Robert Janeczko (BS 63) received the degree of master of arts in education Aug. 18 from Ball State university, Muncie, Ind.

Ebrahim Farahbakhshian (MS 65) received the doctor of education degree from Colorado State college, Greeley, Aug. 17.

"The Ibans bathe two to three times a day but see no reason to wash their hands unless you can see something sticking to them," writes Carol Jean Parrish (BS 64), who is with the Methodist mission, Binatang, Sarawak, Malaysia. Teaching good nutrition and cleanliness in addition to sewing, reading and lessons in Christian family living are part of busy Miss Parrish's schedule. She also serves as treasurer of the mission's work account, is a chapel speaker in the Methodist secondary school and in her "spare time" does all her own housekeeping and sewing.

ROSSMEIER

Joseph G. Rossmeier (BS 65, M.Ed. Michigan State) has been appointed director of admissions at The Detroit Institute of Technology. He resides at 27200 Canfield drive, West, Dearborn Heights, Mich.

Roberta M. Rodgers (BS 65) was appointed a home economist in Michigan State university's cooperative extension service in August. She is currently working toward an M.S. degree at Northern Michigan university, Marquette.

WOJTKIEWICZ

Jeremy R. Wojtkiewicz (BS 66) was commissioned an Army second lieutenant upon graduation from the Engineer Officer Candidate school at Ft. Belvoir, Va., Sept. 8.

Pvt. Charles E. Barnath (BS 66) completed a small arms repair course July 11 at the Army Ordnance school, Aberdeen Proving Grounds, Md.

FRUTH

Robert Fruth (BS 66) was commissioned a second lieutenant in the U.S. Army Engineers upon his graduation from Officers Candidate school, Ft. Belvoir, Va. in September. On Sept. 23 he was married to the former Janet Lunde and they are at home in Virginia where Fruth is stationed.

William Jaeger (BS 67) has joined the staff of the Manitowoc Technical Institute as a machine design technology instructor.

(Continued on Page 6)

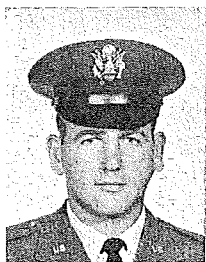

After five years, reunion-goers Darleen Wiechmann Roble, left, and Darlene Honadel Masters (both 62) compare notes and read what's new at Stout with their husbands, Dale Roble, seated, and Bill Masters.

Alumni Notes . . .

Nancy Karaus Johannsen (BS 67) recently joined the home service staff of the Northern Illinois Gas co. As a utility home economist she will offer a wide variety of food programs and gas appliance demonstrations for area organizations. She and her husband, Richard, (BS 67) are at home in Crystal Lake, Ill.

Allen L. Rosenbaum (BS 67) and Harlan T. Pedretti (BS 67) have been commissioned second lieutenants in the U.S. Air Force upon graduation from the OTS at Lackland AFB, Tex. Rosenbaum is being assigned to Chanute AFB, Ill. for training as an aircraft maintenance officer. Pedretti's assignment has taken him to Mather AFB, Calif., for navigator training.

Anthony S. (BS 67) and Mary Ann Graham Kojis (BS 66) are at home at 2602½ Ethel St., Muncie, Ind. Kojis has been granted an assistantship to work toward the master's degree in industrial arts education at Ball State university. His wife is employed by the Ball State university food service.

ROSENBAUM

PEDRETTI

Campus News . . .

Four new majors are being offered for the first time this fall. They are a graduate program in vocational rehabilitation leading to the master of science degree and three undergraduate majors: distributive education, applied mathematics and hotel and restaurant management, all leading to the bachelor of science degree. Each is designed to meet increasing demands for graduates in those fields. The vocational rehabilitation program is housed in Eichelberger hall.

* * *

Standing ovations rang out for Glenn Yarbrough and the U.S. Marine band, stars of the fall lyceum line-up. The Serendipity Singers, scheduled during Winter Carnival, are also expected to draw a standing room only crowd to the Health and Physical Education center auditorium, new home for the majority of the lyceum programs.

* * *

Noted photographer Ansel Adams spent two days on campus this fall for tips and tours with photo students and talks to the public.

THE STOUT ALUMNUS

The Stout Alumnus is the official publication of the Alumni Association of Stout State University, Menomonie, Wis. It is published quarterly and entered at the post office at Menomonie, Wis., as third class matter.

Joseph D. Koch, President
Robert Erickson, Vice-Pres.
Lloyd Trent, Executive Sec.
Elva Morical, Editor

Myrtis Peterson Whydotski, who lives in Menomonie, fills in some missing information for fellow classmate Doris Latshaw Gardner, of Platteville, at their 25th reunion dinner.

President Micheels visited with both "old" and "new" alumni during Homecoming, among them the husband of Elaine Curran Downer, of Banger, left, and Harold Thomas (42), Beloit, back for the 25th reunion dinner in the Hotel Marion. Approximately 60 persons returned for the dinner, which was arranged by Robert Rudiger.

Sports

BY MARK GEISER
SPORTS INFORMATION DIRECTOR

Inconsistency, a replay of last year's major problem, was once again the primary menace to Blue-devil gridders who have been experiencing their worst season in recent years.

At the end of October, with two games remaining, the Devils had posted an 0-7 record in overall competition and an 0-6 mark in conference action.

In addition to head coach Max Sparger's difficulty in fielding a consistent team, the Devils had problems in generating an offense and in stopping the opposition short of Stout's goal.

Mintz Rebuilds

This may well be a rebuilding year for head coach Dwain Mintz since none of last year's five starting players will be returning this season.

The Devils finished last season with a three-way tie for second place in the Wisconsin State University conference.

Mintz said that while he will certainly miss last year's starters he has found that the newcomers have

the desire to become a winning team. He finds them "faster, greener and more eager." Mel Coleman is expected to be a stalwart on the team with junior college transfers expected to fill the gaps in the lineup.

The 21-game schedule includes five non-conference games and sixteen loop meetings. The Devils opened the conference season Dec. 8 with a game at Oshkosh, following play with Northland here Nov. 28 and at Parsons college Dec. 2.

The remainder of the schedule is:

| | | |
|---------|----------------|-------|
| Dec. 9 | Stevens Point | There |
| Dec. 13 | La Crosse | Here |
| Dec. 16 | Augsburg | Here |
| Dec. 20 | River Falls | There |
| Jan. 6 | Bethel College | There |
| Jan. 9 | Eau Claire | Here |
| Jan. 12 | St. Mary's | There |
| Jan. 20 | Superior | There |
| Jan. 26 | Platteville | Here |
| Jan. 27 | Whitewater | Here |
| Feb. 3 | La Crosse | There |
| Feb. 9 | Oshkosh | Here |
| Feb. 10 | Stevens Point | Here |
| Feb. 16 | Platteville | There |
| Feb. 17 | Whitewater | There |
| Feb. 21 | River Falls | Here |
| Feb. 24 | Superior | Here |
| Feb. 26 | Eau Claire | There |

Cross Country Begins

STALLSMITH
Doug Stallsmith, an instructor in Stout's American Industry program, is coach of the university's newest intercollegiate sport, cross country. A graduate of Miami (Ohio) university, Stallsmith coached both cross country and track at Shaw high school, Cleveland, Ohio, before coming to Stout.

Excellence in journalism at Stout has been recognized with the award of the All American (highest) honor rating of the Associated Collegiate Press to the Tower (for the fifth consecutive time) and the *Stoutonia* (second consecutive win).

Don (62) and Sandra Whyte Schlei (64), Eau Claire, seated, and Art Muller (62), Menomonie, re-check the records to find out why the women outnumbered the men at their fifth year reunion. The men were co-hosts for the dinner.

Minneapolis Alumni Club

Robert Melrose, associate professor of social science at Stout, was the featured speaker when approximately 50 members of the Minneapolis Alumni club met Sept. 23 at Little Jack's cafe, Minneapolis. Also present from Menomonie were Marvin (BS 55, MS 56) and Janice Kufahl; Lloyd Trent, director of alumni services, and Mrs. Melrose. Arrangements were made by Gloria Scholz Behling (BS 58) and John Jordan (BS 57).

Irma Nichols Kyle (30), Neenah, vice president, and Emma Newby Lang (33), Menasha, secretary-treasurer, planned the dinner meeting of the Fox River Valley Alumni Sept. 30 in the Hotel Menasha. With them are Milton Benner (53), left, of Oshkosh, the group's president, and Max Sparger, Stout's head football coach, who spoke on "The Athlete At Stout." Alumni services director Lloyd Trent also attended the meeting.

NOMINATION FORM FOR DISTINGUISHED ALUMNI AWARD

(DEADLINE: MARCH 15, 1968)

Name of Nominee _____

Street Address _____

City _____ State _____ Zip Code _____

Description: Field of work of nominee, including title of position held and employer; accomplishments and honors received. Include all comment possible and include any supporting data such as newspaper clippings, etc., which are available.

Nomination submitted by _____ Date _____
